EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Shao on March 31, 206.

IN THE CLAIMS

Claim 1, line 11, delete "being capable of".

Claim 11, line 12, delete "being capable of".

Claim 21, line 11, delete "being capable of".

Claim 31, line 15, delete "being capable of".

Allowable Subject Matter

Claims 1 - 34 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a method of writing data to two mirror images via an I/O process directed to a first storage volume and writing data to one of the mirror images but not the other via another I/O process directed to a different storage volume where the

Art Unit: 2189

first process starts before the second process and the second process runs while the first process runs as claimed.

Conventional mirroring and/or backup systems are capable of performing the steps of mirroring and writing to one of the mirror images in a manner similar to the claimed method. However, in contrast to the claimed method, the second process typically does not run until after the first process is either suspended or terminated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
